#### The Role

Craft Apprentices will be trained to a level where after three years they will be on the way to becoming skilled members working within either Machining, Assembly, Inspection or Maintenance. They will work alongside skilled QC Inspectors, Operators, Setters, Welders and Maintenance Engineers and be exposed and mentored throughout the 4 year apprenticeship. Attending college on a day release basis they are expected to gain and develop key skills which will lead to recognised qualifications required by the business.

#### Main Responsibilities

- Depending on the specialism, Apprentices will learn to:
- Carry out a broad range of machining techniques on lathes, mills and drills.
  - Use standard hand-held measuring equipment, surface plate equipment, CMM, comparator, fixed gauging, thread gauges etc. to measure to a high level of accuracy and precision.
  - Carry out breakdown, servicing and maintenance of all plant, equipment and facilities across the site.
  - Understand metal cutting technology and processes for the training elements under review.
  - Assemble and test valves and sub-assemblies.
  - Work in accordance with health and safety requirements.
  - Complete all necessary documentation to a high standard.

#### What We Offer

- Opportunity to join a diverse, dynamic, and fun global team that likes to challenge the status quo with new ideas and maximum creativity.
- Strong career progression opportunities.
- Flexible Benefits purchase (eg. Opportunity to buy and sell annual leave).

#### What We Are Looking For

- 5 GCSE's (grade 4-5 or above) in Mathematics and English (or equivalent).
- Ability to work well within a team whilst having the confidence to work on own initiative.
- Ability to focus on learning new skills and prepared to undertake learning on a daily basis.
- Enthusiasm, drive, and commitment to a career within Engineering.
- High level of attention to detail.
- Good verbal and written communication.
- Able to understand and follow work instructions; procedures, story boards etc.
- Good levels of manual dexterity and eye/hand coordination.
- PC literate.
- Flexible approach to work in both time and priority.

### Reminders!

#### Year 12 Block Work Experience- 12th June 2023

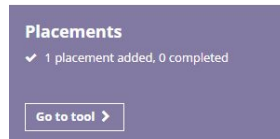

**Parents:** All students in Year 12 should be actively seeking a suitable work experience placement for one week starting **12th June 2023!**

Students are encouraged to use this opportunity to explore careers they might be interested in pursuing in the future or jobs that compliment the subjects they are studying. Students are not allowed to work from home or at their current paid part time work.

Placements need to be secured by **20th March 2023** which will be here in no time!

**Students** If you haven't already please ensure you have:

1. Researched potential employers
2. Created a CV using Unifrog (unless you have one already)
3. Created a covering Letter/email template and made contact with your short listed employers.
4. Once Employers have agreed your placement. Details need to be added to Unifrog

If you are experiencing difficulties or need ideas please contact **Mrs Gribbins in C210** to arrange an appointment time to talk.

### Virtual Work Experience 13th Feb- 24th February

Below are links to up and coming virtual work experience opportunities within a variety of industries.

**Deadlines** for applications are **3rd February 2023**.
