Tips to Reduce Exam Stress

Exercise Regularly

Doing at least 20 minutes of physical activity a day can help to improve focus and keep you relaxed. Light cardio, yoga, or Pilates will help to reduce stress right before your exam.

Think Positively

If you work hard and stay focused with positive energy, stress will be reduced. Believe in yourself and have the confidence to succeed.

Eat Right

Eat three healthy meals a day and limit your consumption of caffeine, sugars and alcohol. Power foods for your brain include blueberries, salmon, and nuts.

Get Organised

You'll feel more confident and in control if you make a list of everything you need to study and create a schedule.

Get Enough Sleep

A good sleep of eight hours the previous night helps you have a relaxed and well-rested mind and body.
