

12th March 2025

## Year 10 exam update

Dear Parents and Carers,

This week we have shared with students as much information about the forthcoming exams as possible. I wanted to provide you with the same communication so that you can support them at home.

### Where can I find the exam timetable ?

Please find it [here](#) on our website.

### How do I help my child revise ?

This [powerpoint](#) contains links to 3 different ways to revise, students have explored these in tutor time this week.

### What should they be revising ?

Revision topics/PLC (personalised learning checklists) have been posted on the Year 10 Google classroom.  
(Year 10 classroom - classwork - then access the individual subject topic folders)

All students have access to this and tutors have modelled how to find this information in registration.

### What are the rules/regulations in the exams ?

These can be found on the [powerpoint](#) and have also been explained in the assembly.

Students will need to ensure they have their ID and lanyards to support the invigilators with identification.

### How will they know where to go on the first day of exams ?

We will be conducting a 'walkthrough' in afternoon registration before the first exam which will ensure that all students are comfortable with the process of lining up.

If you have any questions please contact your child's tutor.

Kind regards,

Mrs E Willis- year 10
