

14 October 2026

Dear Parents and Carers,

Following our recent parent and carer survey feedback, we are writing to share more information regarding what students are learning across the school curriculum. We always appreciate your feedback and are committed to keeping you informed about your child's educational journey.

To help you support your child at home, detailed subject curriculum maps outlining topics, learning objectives, and progression pathways for each year group are available on our school website. You can view these maps here: [Queen Elizabeth's School Curriculum Maps](#).

If you have specific questions about any of the curriculum content or wish to reach out to individual subject leaders and year team leads, please refer to our key contacts list below:

Key Staff Contacts

For a full directory of department heads, subject leaders, and pastoral team members, please visit our staff contact page: [Queen Elizabeth's School Key Staff Directory](#) if you have any subject specific queries.

Thank you for your continued partnership and support in your child's education.

Kind regards,

C Porter

Claire Porter
Deputy Headteacher
