Week beginning	Topic / Content to revise	Completed / RAG rate
26th February 10 weeks to go	C1 - Atomic Structure - Atom structure and history. History of the periodic table. Groups in the periodic table (1, 7, 0 and transition metals)	
4th March 9 weeks to go	C2 - Structure and Bonding Ionic bonding and properties of ionic compounds, covalent bonding and properties of simple covalent molecules. Giant covalent structures (diamond/graphite). Polymers and nanoscience and Fullerenes. Metallic bonding	
11th March 8 weeks to go	C3 - Quantitative Chemistry (calculations) Conservation of mass. RFM, Uncertainty in measurements.	
18th March 7 weeks to go	C4 - Chemical Changes Reactivity of metals (reactivity series, displacement and extraction). Acids and alkalis (neutralisation, reactions, making salts).	

	Electrolysis (molten compounds and aqueous solutions).	
25th March 6 weeks to go	C5 - Energy changes Exothermic and endothermic (energy profile diagrams).	
1st April 5 weeks to go	C6 - Rate and Extent of reactions Factors affecting rate, Catalysts, Experiments and reversible reactions and their energy changes.	
8th April 4 weeks to go	C7 - Organic Chemistry Crude oil formation, alkanes, fractional distillation, cracking and alkenes.	
15th April 3 weeks to go	C8 - Chemical Analysis Pure substances & formulations, chromatography and gas tests.	
22nd April 2 weeks to go	C9 - Atmospheric Chemistry Current Atmosphere and development of the atmosphere. Global warming and climate change. Carbon footprint and pollution	
29th April 1 week to go	C10 - Using Resources Sustainable development and resources, potable water, waste water treatment and LCA's, reducing waste.	
6th May 0 weeks to go	Past Papers	
13th May	Past Papers	
20th May	Revisiting any topics you are weak on.
