

11 October 2024

Dear Parents and Carers,

I hope this letter finds you well. I am writing to inform you about the continued importance of Sparx Reader and Sparx Maths in supporting your child's learning, and how you can help encourage their progress.

Sparx Reader is an excellent platform that helps students develop their reading comprehension skills. Regular reading not only improves literacy but also fosters critical thinking and expands vocabulary. Engaging with Sparx Reader will give your child the opportunity to explore a wide range of texts, helping to build confidence and a love for reading.

Similarly, Sparx Maths is designed to strengthen your child's understanding of key mathematical concepts through tailored homework tasks. The program adapts to your child's learning pace, providing support and challenges where necessary. Regular use of Sparx Maths ensures that your child continues to consolidate the material covered in lessons, preparing them for future topics and assessments.

To encourage consistent engagement, we will be awarding 5 house points to students who complete their homework on Sparx Maths and Sparx Reader every week. This is a great opportunity for students to earn recognition for their hard work and contribute positively to their house.

However, it is also essential that homework is completed regularly. As such, lunchtime support sessions will be set for any students who fail to complete their Sparx homework. The support sessions are compulsory and will take place in A212 so that students can access computers. Students will be supported by colleagues with knowledge of how to help them with the tasks they have been set during these sessions.

We kindly ask for your support in encouraging your child to complete their Sparx homework on time.

Thank you for your continued support.

Kind regards,

Ms Diana Detterick
Assistant Headteacher
